OUR STORY

The Hummingbird: a manifestation of the sun and a symbol of life.

Established in 2020, Coaching Minds became a beacon of light for those struggling during the pandemic. From what began as a small group of ambitious coaches offering pro-bono services, soon blossomed into a Global Coaching School. Onboarding coaches from over 15 different countries and training people to support with our mission to make coaching affordable and accessible across the globe.

When a hummingbird landed on the hand of our Managing Director, in a magical and meaningful moment amidst the mountains of Colombia, the hummingbird became the symbol of our vision.

As we embark on our projects and ventures in coaching, the spirit of the hummingbird serves as a constant reminder to approach situations with lightness and joy. Just like the hummingbird flits from flower to flower, we too aim to delicately touch the lives of those around us, leaving a trail of positivity and inspiration on our path.

We invite you to become part of our next chapter...
